

OPEN ACCESS Article Processing Charge (APC) Payment Form

Nature Communications is an open access journal, where all journal content is permanently available free of charge to all readers. Articles are therefore subject to an article processing charge in order to support publication costs (as detailed in the 'Instructions to Authors').

It is mandatory to send this completed form and the Open Access Licence to Publish form to the return address (details below). Your manuscript may not be processed for publication until we have received the relevant forms.

Credit terms are 30 days from receipt of invoice. Failure to pay your invoice within the stated credit term may make you liable to such penalties as restrictions on your ability to publish with NPG or this title in the future, involvement of a third party debt collection agency and legal proceedings.

The APC will be charged at the following rate: £3,150 / \$5,200 / €3,700

VAT or local taxes will be added where applicable; for details please see www.nature.com/TaxInformation.
